### Legal Notice

As per the Health Insurance Law No. 23 of 2005, health insurance is compulsory for every resident expatriate of the Emirate of Abu Dhabi. According to Art. 11 No. 1 and Art. 12 No. 1 of the executive regulations to the law an employer and/or sponsor shall be responsible for providing health insurance cover for its employees and/or sponsored and their dependants at all times. The law stipulates therefore that health insurance policies are due for annual renewal. We would like to remind you of this fact and emphasise that failure to do so will result in the loss of continuity of coverage and will have severe consequences by law. The Abu Dhabi government authorities are taking strong and effective measures to detect non-renewal cases and impose fines accordingly. For inquiries regarding the implementation of the health insurance law, you can contact Health Authority Abu Dhabi (HAAD) at toll free number 800 800.
