1. Abstract

1.1 For Members

Influenza (flu) is an acute respiratory infection caused by influenza virus that is usually self-limiting. It can cause mild to severe illness; symptoms are more severe than those of common cold.

Daman covers medically justified treatment of influenza for all health insurance plans administered by Daman subjected to policy terms and conditions. Daman coverage of the flu vaccine (for prevention of influenza) will be limited to those plans with the specific benefit, subject to policy terms and conditions.

1.2 For Medical Professionals

Daman covers medically justified treatment of flu (including Antipyretics/analgesics and antiviral drugs) for all health insurance plans administered by Daman subject to policy terms and conditions. Daman coverage of the influenza vaccine will be limited to those plans with the specific benefit, subject to policy terms and conditions.

Daman follows the Regulator standards on prevention and control of Influenza.

2. Scope

- This guideline covers the outpatient prevention, diagnosis, and management of influenza (Flu) excluding cases identified as epidemic or pandemic.
